Background of the Program

Islamic banking and finance industry is growing faster than the conventional counterpart both in global and local context. In line with this, there is huge demand for a set of skilled people with technical and Shariah knowledge for expediting the growth and making the Bangladeshi banking and finance industry sustainable. Besides, all types of key stakeholders should have operational knowledge in Islamic banking and finance for working together for the development of our economy. Moreover, there is no sufficient scope for acquiring relevant knowledge in this area through the existing education system. To meet-up this indispensable need of the economy, BIBM as a national-level apex training institute, is offering a unique certification program designed to develop a competent resource pool.
